Summary

Data Analyst Intern aspirant with strong hands-on experience in SQL, Python, Excel, and Power BI. Skilled in data extraction, cleaning, exploratory data analysis, and transforming raw data into actionable business insights. Experienced in building dashboards, developing KPIs, and automating repetitive analysis tasks. Strong problem-solving ability with keen interest in understanding business requirements and delivering data-driven solutions.

Technical Skills

Programming: Python, C
Databases: MySQL (joins, aggregations, filtering)
Data Analysis: Data cleaning, EDA, KPI development, feature engineering
Visualization: Power BI, DAX, Power Query, Excel
Libraries: Pandas, NumPy, Matplotlib, Seaborn, Plotly
Tools: Git, GitHub, Jupyter Notebook, VS Code
Languages: English, Telugu

Projects

Olist E-Commerce Data Analysis & Dashboard *Python, Power BI*

GitHub: github.com/Khyathiyadav/Healthcare_orders_analysis

- Analyzed a large-scale multi-table e-commerce dataset to uncover insights on sales trends, customer behavior, and delivery performance.
- Performed data cleaning, preprocessing, and feature engineering using Python (Pandas, NumPy).
- Conducted exploratory data analysis to identify top product categories, regional sales distribution, and payment patterns.
- Built an interactive Power BI dashboard with KPIs such as total revenue, order trends, and delivery time analysis.

Customer Behavior Analysis Dashboard

Python, SQL, Power BI

GitHub: github.com/Khyathiyadav/Customer-Analysis

- Extracted and analyzed customer transaction data using SQL to identify revenue drivers and repeat purchase patterns.
- Cleaned and processed datasets using Python (Pandas), handling missing values, duplicates, and inconsistencies.
- Built KPIs and an interactive Power BI dashboard to deliver actionable business insights.

Sales Performance Dashboard

Power BI, DAX, Excel

GitHub: github.com/Khyathiyadav/sales-performance-dashboard

- Analyzed sales data to track revenue trends, regional performance, and product-level insights.
- Performed data cleaning and transformation using Power Query and Excel.
- Created KPIs and automated reporting using DAX.

Netflix Content Analysis Dashboard

Python, Excel, Power BI **GitHub:**

github.com/Khyathiyadav/Netflix-Content-Analysis-Dashboard

- Analyzed Netflix dataset to identify trends in genres, countries, and content growth over time.
- Performed data cleaning and preprocessing using Python and Excel.
- Built a Power BI dashboard to visualize insights for data-driven decision-making.

Education

Indian Institute of Information Technology, Sri City
B.Tech in Artificial Intelligence and Data Science

CGPA: 6.33
